

R0228

Chapter and policy number	Comment	Do you consider the Local Plan to be Legally Compliant? (yes/no)	Do you consider the Local Plan to be Sound? (yes/no)	Complies with Duty to Cooperate (yes/no)
Chapter 3 Health and Inclusion, Policy 3.14.0	<p>Designing out crime cannot be left to individual developers or developments. It must be looked at globally - vulnerable and high risk building should be better protected - so for example we were shocked to discover that the churches in the Vintry and Dowgate Wards were not covered by street CCTV.</p> <p>A City wide security plan needs to be identified and implemented, protecting all users - not just high profile new developments.</p>	Yes	No	No
Chapter 11 Heritage & Tall Buildings, Policy 11.1.6	<p>This section focuses on historic buildings retrofitting to mitigate climate change. This is a sensible proposal but there is no indication as to how this will be funded.</p> <p>Practical and financial help is required to allow vulnerable historic buildings - which already face very high maintenance costs - to deal with measures to reduce their carbon emissions. At St James Garlickhythe we are planning a project to do just this - but the costs will be high and much more than we can afford without outside assistance.</p>	-	No	No
Chapter 11 Heritage & Tall Buildings, Policy 11.1.4	We strongly object to the phrase - ' the City's rich heritage contributes to the city's primary function as a business centre'	Yes	No	No

	<p>The City is a place of business, but it is much more than that. The business aspect is just one facet of what makes the City tick, with places of worship providing the long term roots to the City. We are much more than just 'tourist and visitor destinations'</p>			
<p>Chapter 7 Culture & Visitors, Policy 7.1.0</p>	<p>The culture and Visitors section completely overlooks City churches and their enormous contribution to the culture of this City over centuries - and no lesser now. At St James Garlickhythe we host numerous cultural events and are very much the central part of our community.</p> <p>The policy is so focused on developing new facilities it totally overlooks the existing ones, and how to make them even more integral to City life and support them for the future.</p>	<p>Yes</p>	<p>No</p>	<p>No</p>
